

## Urtical Gods

Enslaved

Activate the aggression that exposes the Hidden,  
Denying the existence of praying to Illusions  
Seek gnosis in the forbidden  
Drink from the wates of knowledge  
And see what lies you breathe

Absorb the vital spark of deities false  
And ressurect the true gods  
To whom strength and wisdom is the key  
And not the lectures of folly  
Annoint your soul with pleasure  
Opposed to mummifications through impotence

The truth is unconscious, asleep  
Waiting to be summoned, to be worshipped  
A neglected phallos, banished from thought  
A weapon overseen by the creator  
But cherished by those of the path  
Unlock the beast
