Blood Song

Entombed

Drinking blood A red delightful bloody power My fatal bite The art of the blackest hour I suck your blood An immense everlasting lust Morning grows The sun burns me to dust Your beating heart Gives the flow In my high I will let you go Red pulsing rivers To me from you But when I'm there You are through A vampire Blood desire Gets me higher An unquenchable fire Revel in blood Under the moon Give me your blood It is my doom It's a power beyond belief Beyond pain My life's a stream Inside your vein I suck your blood !
