

## Love Song For Lucifer

Entombed

Come inside of me  
Come inside of me

Lucifer my friend  
You are the one that comprehends  
You are the one that helps me see  
You are the one that let me be  
Come inside of me

You are the one that hold me hand  
You are the one that understands  
You are the keeper of my soul  
You are the one that makes me whole  
You are the keeper of my soul  
You are the one that makes me whole  
You are the keeper of my soul  
Make me whole

Reborn with open eyes  
Now I see the lies  
Raining from the skies - bleed  
Penetrated souls  
Feeding all their holes  
Mastering their roles - meek  
Come inside of me  
I will help you see  
Be all you can be - free

Come inside of me  
Come inside of me  
Come inside of me  
Come inside of me  
Make me whole
