Love Song For Lucifer

Entombed

Come inside of me Come inside of me

Lucifer my friend
You are the one that comprehends
You are the one that helps me see
You are the one that let me be
Come inside of me

You are the one that hold me hand You are the one that understands You are the keeper of my soul You are the one that makes me whole You are the keeper of my soul You are the one that makes me whole You are the keeper of my soul Make me whole

Reborn with open eyes
Now I see the lies
Raining from the skies - bleed
Penetrated souls
Feeding all their holes
Mastering their roles - meek
Come inside of me
I will help you see
Be all you can be - free

Come inside of me Come inside of me Come inside of me Come inside of me Make me whole
