When all you have's a hammer All you see is nails When all you have's a hammer And when all else fails Hit the nails!

When all you have's a buzz-saw All you see is wood When all you have's a buzz-saw You just wish you could Yeah, you would!

When all you have's a lighter All you see's a fuse And when you see it burning You ain't got nothing to lose!

When all you have's a shovel
All you see is graves
When all you have's a shovel
In hollow pits they will be saved
Light the fuse!
