

Won't Back Down

Entombed

It's time to put it straight
I dislike the way you act
I said Hey!!!
Get off my back

End of discussion
You're not getting used
None will give you sympathy
If you deal with self abuse

Ever thought about getting a Life?

Sick of hearing your lies
You burn down my fuse
When it's me it's a mistake
For you there's always an excuse

Stick to the truth or please shut the fuck up
Qualified bullshit that never seems to stop
Try someone else I won't fall for no lies
Get a life

Throw it in my face, cut the bullshit
You sit around and bite your fingertips
A bunch of parasites with covered up tracks
Get off my back
