

Blood Red

Entrails

I am your majesty

Noise of death I'll hear

Never change the course

I have your soul of death

Diiiiieeeeeeeeeee

Cut by knife

I scream like hell

Blood red I spill

Raining blood

I should never lied

Blood red I spill

I am your worst nightmare you ever had

I scream in your head your blood turns red

I call you in the darkest death

When you have arrived you can't find back
