

## Chained and Dragged

### Entrails

A blow to the head, unconsciousness  
Soon to be in death's caress  
You're worthless, your life I will drain  
A constant desire to inflict pain

Shackled in chains,  
Dragged in pain  
Buried alive,  
Below you die

I tie you up and shackle your hands  
When you're conscious  
you'll obey my commands  
Entangled in chains, declare me as god  
You scream as I drag you through the mud

Life is pouring out of you  
soon you'll be gone  
Relentless torture,  
you'll be dead by dawn

Your wrists are bleeding  
from the sharp, cold steel  
Hoping that it's all a dream,  
but it's for real

Life is pouring out of you  
soon you'll be gone  
Relentless torture,  
you'll be dead by dawn

I roll you down in a newly dug grave  
You scream for your life that is too late to save  
An alive burial as I fill the grave again  
You're gasping for air, but it's all in vain

Shackled in chains,  
Dragged in pain  
Buried alive,  
Below you die
