

# End Of All Existence

## Entrails

The sun goes down  
Never to rise again  
Black clouds fill the sky  
Darkness and nothingness

The world goes to sleep  
Never to wake again  
All hope is lost  
The end of all existence

[Chorus:]

Freezing winds  
Earth covered with death  
Life has ended eternally  
The end is here

No rest in peace  
Peace is no more  
Everything is dead  
Dead to the core

Time to face the end  
Death is now certain  
All life is lost  
Dead and forever gone

The end of all existence  
The end of all life  
The end of all existence

Nothing is forevermore

Deep endless black

Towards nothingness

The fall of existence

Nothing will ever live again

[Chorus]
