

# Total Death

## Entrails

Come to me now

Don't be afraid

Death's cold dark

Obey my command

Awaiting execution

Destiny has arrived

Slaves in this world

Listen to me

[Chorus:]

Torment - Pain

Massacre - Soul

Morbid - Rituals

Total death

Kill the innocent ones

Darkness will eat their souls

Make it look like a suicide

And make my dream come true

Beware of the tormentor

They deserve to die

Paralyzed with pain

Bones break, they must crawl

I give pain to all

Corpses are molested

Feast on flesh and blood

Mortal screams fills my ears

As they die

[Chorus]
