

Caught By Desire

Entwine

Open up to me
And soon our worlds become one
Spread your wings to me
In time we end up high
Better hide from myself, I wanna die
I believe that it was wrong
To fall into desire,
So, we must crawl...
Crawl away from the light
We'll go in through the fire
You spread your wings to me
And now the world is all wrong
Pleasures smile has turn to laughter
Leaving me to scream
Better hide from myself, I wanna die
I believe that it was wrong
To fall into desire,
So, we must crawl...
Crawl away from the light
Better hide from myself, I wanna die
