

In Delight

Entwine

Turn off the lights, the night has fallen
Close your eyes, for the midnight show
Release your mind, enjoy the silence
The sparkling lights within your mind tonight

Sleep... Before you lose control
Caress your heart, caress your heart and soul
Sleep... In your dreams you're on your own
Caress your heart in sweet delight

In your mind, you hear them calling
Open your eyes, for the midnight show
Release your mind, remove the silence
The sparkling lights from guiding love tonight

Dream... It's time to lose control
Caress your heart, caress your heart and soul
Dream... In this dream you're on your own
Caress your heart in sweet delight

Delight

Caress your heart
Caress your heart
Caress your heart
Caress your heart in sweet delight

Sleep... Before you lose control
Caress your heart, caress your heart and soul
Sleep... In your dreams you're on your own
Caress your heart in sweet delight

Dream... It's time to lose control
Caress your heart, caress your heart and soul
Dream... In this dream you're on your own
Caress your heart in sweet delight

In sweet delight
