

Save Your Sins

Entwine

Restrain your life to tame your sins,
Pretending eyes behind your grin,
Ethereal silence of the end,
You fake your smile for your defence.

For the lives we have to follow,
Makes it hard to be your friend,
I try not to follow, no no no no no.

I'm in pain but I don't care,
And it breaks your will to burn,
Do you think to understand,
We're bold as we still turn.

Wooooaaahhh,
I think that I don't care,
Wooooaaahhh,
I think that I don't care.

So bite your tongue to save your sins,
The lack of smile for you're the end.

For the lives we have to follow,
Makes it hard to be your friend,
I try not to follow, no no no no no.

I'm in pain but I don't care,
And it breaks your will to burn,
Do you think to understand,
We're bold as we still turn.

Fuck Off!
Your nothing but a fickle fucker.

I'm in pain but I don't care,
And it breaks your will to burn,
Do you think to understand,
We're bold as we still turn.
