

Stoned

Enuff Z'Nuff

High
High

Worlds of thoughts, an endless space
Sometimes even underground
Helpless in the human race
And hopeless when the sun goes down

If you give me a load, if you give me it all
I promise, the world I can make it
One thing I know, if you leave me alone
I'm stoned

High

All around, temptation calling to me
Calls me by my name
Darling tasting your sweet apples
More tempting than cocaine

If you give me a load, if you give me it all
I promise, the world I can make it
One thing I know, if you leave me alone
I'm stoned

People all around me seem to bluff
To get me on the thing
Hope, my darling, you could save
Take me home, I'll be a king

If you give me a load, if you give me it all
I promise, the world I can make it
The one thing I know, if you leave me alone
I'm stoned

If you give me a load, if you give me it all
I promise, the world I can make it
The one thing I know, if you leave me alone
I'm stoned

Stoned
