

## Amarantine

Enya

You know when you give your love away  
It opens your heart, everything is new  
And you know time will always find a way  
To let your heart believe it's true

You know love is everything you say  
A whisper, a word, promises you give  
You feel it in the heartbeat of the day  
You know this is the way love is

Amarantine, Amarantine, Amarantine  
Love is love always love
