

# Dark Sky Island

Enya

Listen to the waves speak up  
The blue voice of the sea  
And they whisper as they touch the shore  
Come back to me  
Come back to me

Boat by boat upon the waves  
All come to find the light  
In the darkness of the sky above  
Come back to me  
Come back to me

Capella, Auriga  
Eta Carinae, Sagitta  
Aquila, Alpha Centauri

Twilight comes to close the day  
And let the night break free  
And from deep blue skies the heavens rise  
Come back to me  
Come back to me  
Come back to me  
Come back to me

Capella, Auriga  
Eta Carinae, Sagitta  
Aquila, Alpha Centaurii

Moonlight brings the ocean's storms  
Like waves upon the sea  
And the midnight shore calls out once more  
Come back to me  
Come back to me  
Come back to me  
Come back to me

Come back to me  
Come back to me
