Long Long Journey

City lights shine on the harbour, Night has fallen down, Through the darkness And the shadow I will still go on.

Long, long journey Through the darkness, Long, long way to go; But what are miles Across the ocean To the heart that's coming home?

Where the road Runs through the valley, Where the river flows, I will follow every highway To the place I know.

Long, long journey Through the darkness, Long, long way to go; But what are miles Across the ocean To the heart that's coming home?

Long, long journey Out of nowhere, Long, long way to go; But what are sighs And what is sadness To the heart that's coming home?
