

Saving Grace

Eowyn

When I try to recall the past I see your face
You erased all my doubts
Nothing less than a miracle
You saved my life
You were so amazing

Perish surely
I thought truly
But You came
You rescued me

Here I am once again in the midst of doubt
Setting forth on the path You have fashioned out

You have shown there is none like You in this world
I'm undone
You have come
You're my Saving Grace

Brittleness breaks me
Once again I snapped in two
Damaged through to my soul
Frail but I can feel the strength returning
So alive I can feel life burning

With Your beauty
How You've have moved me
You are there
You carried me

Here I am once again in the midst of doubt
Stepping forth on the path You have fashioned out

You have shown there is none like You in this world
I'm undone
You have come
You're my Saving Grace

Here I am once again in the midst of doubt
Stepping forth on the path You have fashioned out

You have shown there is none like You in this world
I'm undone
You have come
You're my Saving Grace
