

## Internal Warfare

Epica

Would anybody dare to know the answer?  
Would anybody dare to face the truth?  
We bide the time awaiting our answers  
To our kind

We're all in this apocalypse together  
The horror we so feared can't be undone  
We all remove allegiance to disaster  
Tragic crime

Life we used to know  
Ends where silence comes to us forever  
Night will soon bestow  
Justice on a day that never ends

The piercing eyes of bullets' shine run faster  
Than peace and understanding can conceive  
To use and to deceive to teach a lesson  
Cross the line

Life we used to know  
Ends where silence comes to us forever  
Night will soon bestow  
Justice on a day that never ends

I'm a true believer  
A soldier with a gun  
I shall swipe the earth clean  
Won't take long

Te Deplangemus - Haud Resistentes - A Te Vexati -  
Manebimus

I must trust my instinct  
And act on his behalf  
My ship is full with water  
But won't go down

Life we used to know  
Ends where silence comes to us forever  
Night will soon bestow  
Justice on a day that never ends

Life we used to know  
Ends where silence comes to us forever  
Night will soon bestow  
Justice on a day that never ends  
Never ends
