

# Stay the Course

Epica

Stay the course  
Unregarded what the others think  
Follow through your goals  
Stay the course  
Be impassive what all the others want  
Go your own way

Stand focused, stay strong

Stay the course  
And regardless what the critics say  
Seek your golden road  
Stay the course  
Be hard and fast  
Reach out, achieve your goals  
Chase your own dreams

Stay faithful, prolong

Veils that cover the sacred treasures  
That no one dares imbibe  
Those proclaiming different views  
Were long ago proscribed  
I should warn you, it's deadly to abide  
Instead I taught you to bow and toe the line

Fear is what you breathe  
Disagree  
Guidance what you need  
For all the chances you will never see  
Trust in me

Notice the anomalies  
Erase them from your memory

Fight dismay  
Deny the disarray  
Just keep them far away from you and fight  
With all your might

Stay the course  
Show no remorse  
Terminate all that deters

Veils that cover the sacred treasures  
That no one dares imbibe  
Those proclaiming different views  
Were long ago proscribed  
I should warn you, it's deadly to abide  
Instead I taught you to bow and toe the line

I should warn you to never compromise  
Instead I want you believing the disguise
