

# First Blood

## Epysode

[Kallon]  
Flashing lights cut the night like a blade.  
The tortured sounds of sirens  
Shatter the silence.

[Yae]  
Dancing like marionettes,  
Forever moving, so insignificant...

[Kallon]  
I walk along dark corridors, analysing all I can.  
Curtains, like ghosts, on the wind

[Yae]  
Still you cannot evolve and change what you are...  
Poor madmen!

[Maymos, Esh, Kallon]  
Cross the door of darkness to reach the light  
Beyond the fear and without any doubt...  
Let yourself be driven by your soul  
Beyond the fear... until the end...

[Yae, Esh]  
...

[Kallon]  
First Blood...

[Kallon]  
In the silence of this empty bedroom  
The hours darken our vision.

[Yae]  
Birth of a bad hero,  
The beginning of a decay...

[Kallon]  
Nevertheless I sense a presence in this place...  
Mocking me!

[Vae]  
You'll be betrayed by your naivety,  
You fight alone against something  
Which is beyond you...

[Maymos, Esh, Kallon]  
Cross the door of darkness to reach the light  
Beyond the fear and without any doubt...  
Let yourself be driven by your soul  
Beyond the fear... until the end...

[Valma]  
Let yourself be driven by your soul.  
If you can look past all appearances,  
You will find a road to the truth.

[Maymos, Esh, Kallon]

Cross the door of darkness to reach the light  
Beyond the fear and without any doubt...  
Let yourself be driven by your soul  
Beyond the fear... until the end...

[Kallon]

On every street, your footsteps I shall pursue,  
Into the blackest forest I shall follow.  
For now I know you are different from any  
Other I have chased in my life.

And now you become the prey and I, the hunter.  
Whoever you are, you've drawn the first blood.
