

Invisible Nations

Epysode

[Yae]

"Life around you slowly dies..."

[Valma]

"The doors of silence have opened

Souls and forgotten ones are searching for you"

[Esh]

Behind the walls

Beyond the blackness

[Esh & Maymos]

Another world is watching

[Esh]

Behind the hopes lost on the wind

Beyond the wars draining you

[Esh & Maymos]

Another life is waiting

[Esh]

Don't ever let your fear rule

Never listen to their lies

Don't give their belief what it needs

Never trust their wicked smiles

[Esh & Maymos]

Open your eyes

We rule your lives

From the origins of light

The invisible nations still fight

[Esh]

Behind the calls

Beyond delusion

[Esh & Maymos]

Another world controlling

[Esh]

Behind the words spun by money

Beyond the faith burning you

[Esh & Maymos]

Another life is speaking

[Esh]

Don't ever let your fear rule

Never listen to their lies

Don't give their belief what it needs

Never trust their wicked smiles

[Esh & Maymos]

Open your eyes

We rule your lives

From the origins of light

The invisible nations still fight

[Yae]

Now... only emptiness

The world begins to cry

As the life around you slowly dies

[Esh]

Watch for the signs that light your way

[Maymos]

For millions of years we've been with you

[Yae]

snigirO eht htiw gniyalp ma I, noitpmeder ...I

[Esh & Maymos]

Open your eyes

We rule your lives

From the origins of light

Open your eyes

We rule your lives

The invisible nations still fight

[Esh]

Open your eyes, another life is coming

[Maymos]

We rule your lives 'cause your world is dying
