

The Black Parade

Epysode

We won't let you go alone
But we have made a tragedy
And our wounds won't heal
Our world will fade as my eyes
Is earth the promised paradise?
We could rise above the fire
Into this tragic comedy
Since we have the truth
Our world will fade as my eyes
Is earth the promised paradise?

We are lost inside shadows
So many times we've asked the mirrors
To erase the sins we've made (but)
We are riding this black parade

We're standing on the heaven's threshold
Like slaves we are waiting for absolution
So many times we've asked the gods for
Why we were riding this black parade

Twilight will fade into the flames
It's all the visions I can see
Sailing the oceans of time
Our world will fade as my eyes
Is earth the promised paradise?

Our world will fade as my eyes
Is earth the promised paradise?
