

Christmas Party

Eraserheads

All around the world
People make a change
Common and join the celebration
All around the world
People make a change
It's time to have a christmas party

Peace on earth goodwill to everyone
It isn't very hard to understand
So get in to the groove of happiness
You got no choice but to feel like all the rest

There's a new day dawning
Something great is happening
Everybody get down
Funky little heaven nature sing

Rejoice, rejoice, rejoice
Coz now you have no choice
We're free to do whatever we please
Get up off our knees
Now it's time to live all cares and worries behind
Make it yours and mine
At christmas time
