Shadow

Eraserheads

Shadow is my friend He'll be with me Till the end I don't have to Make amends Like that river Round the bed

He won't let me down Just chase me around He won't get on my nerves If it gets any worse

People are so strange Everybody is deranged Everytime I try to speak They don't get it for a week

I'll get out of bed Sing songs in my head I'll wait for the sun To shine on the one Who never disagrees And likes everything he sees Let's go for a ride The road is long and wide
