

# Angel

## Erasure

See how much you mean to me  
My electric symphony in blue  
Just one look in your eyes  
Maybe I was hypnotised by you

You told me on the telephone a picture so serene  
And the beat goes on  
Feels like a fever burning  
And I say

Yes to your love and there's no secrets  
High and ascending  
Delving deeper  
Fly like an angel, wings unfurling  
Fanning the flames of love eternal

All around the world the love  
will manifest itself in special ways  
Up there on the shelf in spiritual or sexual relays

I want you, yeah I crave you  
I need you next to me  
Locking the lip-sync on  
A rocket to red hot love perfection

Here we go round and there's no secrets  
High and ascending  
Delving deeper  
Under the water, clear as crystal  
Spinning around in giant circles  
Fly like an angel, wings unfurling  
Fanning the flames of love eternal

[Down down deeper and down]  
[Down down deeper and down]  
[Down down deeper and down down down down]  
[Down down deeper and down]

[Down down deeper and down]  
You say "Reach me  
I'll be your deity  
Come and touch me  
Make it real"  
Turning the charm full on  
Sending me into excitation

Woah  
[In my heart]  
[Do be true]  
[Treat me like our love is true]

Here we go round no room for secrets  
[In my heart] [Do be true]  
High and ascending, delving deeper  
[Treat me like our love is true]  
Love is resounding, clear as crystal  
[In my heart] [Do be true]

Spinning around in giant circles  
[Treat me like our love is dear]

Our message is love and there's no secrets  
[In my heart] [Do be true]  
Ever evolving heavenly creatures  
[Treat me like our love is true]  
Fly like an angel, wings unfurling  
[In my heart] [Do be true]  
Fanning the flames of love eternal  
[Treat me like our love is dear]
