

Looking in the papers makes me sorry to be human
A little ray of hope won't hurt at all
A price on every head, and it's cheaper when you're dead
The quality of life may have to fall

Muffled voices
World in action
Stir the peaceful
Need for longing

I cannot describe the fear inside my heart
I hereby do swear to live my life in accordance with grace

Guess it's human nature to be cruel and to be heartless
It's no excuse to shoot him when he's down
Crawl in on your knees and then bite the hand that feeds
The cages throw their shadows 'cross the ground

Where's the sense in senseless violence
Hear the silence too forgiving

I cannot describe the fear inside my heart
I hereby do swear to live my life in accordance with grace
(Grace)
(Grace)

Press your hands into the pavement
Bathed in glory, here's your moment

I cannot describe the fear inside my heart
I hereby do swear to live my life in accordance with grace

I cannot describe the fear inside my heart
I hereby do swear to live my life in accordance with grace (Acc
ordance with grace)

I cannot describe the fear inside my heart
I hereby do swear to live my life in accordance with grace
