

If I Could

Erasure

Make The World A Little Better

I don't believe you know
What you're talking about
I don't believe you'd ever go
And ever find out for yourself
Always got a lot to say
Well I'm not listening anyway
I'm not listening anyway

If I could
Make the world a little better
You know I would
Make the world a little better
If I could
Make the world a little better

I don't believe you care
About the consequences
I don't believe you share
In what you know we know is true
Turning keys and locking doors
I won't accept that anymore
Won't accept that anymore

If I could
Make the world a little better
You know I would
Make the world a little better
If I could
Make the world a little better

I don't believe you know
About the hearts you've broken
I don't believe you show
What your intentions really are
Can you hear
What have you done
There's not enough for everyone
Not enough for anyone

If I could
Make the world a little better
You know I would
Make the world a little better
If I could
Make the world a little better

If I could
Make the world a little better
You know I would
Make the world a little better
If I could
Make the world a little better

(If I could you know I would)
(If I could you know I would)

(If I could you know I would)
(If I could you know I would)
