## **Knocking on Your Door**

Send me 'cross the river Take me 'cross the ocean I just need to be somewhere To sort out my emotions You know it's up to you You know exactly what to do I can't take it anymore I don't want to come back

Knocking on your door Down there on the floor I don't want to come back Knocking on your door Breaking every law I don't want to come back Knocking on your door

Love to see me shiver You'd like to see me break down (break down) I've just got to hide my face Won't see your satisfaction You know it's down to you You know this thing I'm going through I can't take it anymore I don't want to come back

Knocking on your door Down there on the floor I don't want to come back Knocking on your door Breaking every law I don't want to come back Knocking on your door

You know it's up to you You know exactly what to do I can't take it anymore I don't want to come back

Knocking on your door Down there on the floor I don't want to come back Knocking on your door Breaking every law I don't want to come back Knocking on your door

Down there on the floor I don't want to come back Knocking on your door Breaking every law I don't want to come back Knocking on your door

Down there on the floor I don't want to come back Knocking on your door

## **Erasure**

Breaking every law I don't want to come back Knocking on your door
