

# Rescue Me

Erasure

Love is cast ornately in your heart flame  
Chakra wheels are turning like a love train

I could pray a hundred times  
Keep these demons from my mind  
Yeah, I could pray a thousand times  
Stay in your loving arms entwined  
(In your loving arms entwined)

Oh that I should be ever so lonely  
Driving the pain right through to my heart  
Oh that I should be ever so lonely  
Riding the pain like a fool in the dark

We shall blur the lines of definition  
Waves of love our only ammunition

Tear my head out from the sound  
Throw myself upon the ground (Take me to the burn. In your loving arms)  
Take me to the burning tree  
It has this strange effect on me (Riding on a train. Baby I could pray)

Oh that I should be ever so lonely  
Driving the pain right through to my heart  
Oh that I should be ever so lonely (Ever so lonely)  
Riding the pain like a fool in the dark (There has to be)

Oh that I should be ever so lonely  
Driving the pain right through to my heart (In my heart)  
Oh that I should be ever so lonely  
Riding the pain like a fool in the dark (There has got to be)

Oh that I should be ever so lonely (And that is you)  
Driving the pain right through to my heart  
Oh that I should be ever so lonely  
Riding the pain like a fool in the dark

Fascination never tasted sweeter  
My desire real and soaring freely

You alone can save my soul  
You alone are my salvation  
You alone can make me whole  
Rescue me from condemnation  
(You are my salvation)

Oh that I should be ever so lonely  
Driving the pain right through to my heart  
Oh that I should be ever so lonely (Ever so lonely)  
Riding the pain like a fool in the dark (There has to be)

Oh that I should be ever so lonely (Ever so lonely) (And there is)  
Driving the pain right through to my heart (There has got to be)  
Oh that I should be ever so lonely (And there is) (And there is)  
Riding the pain like a fool in the dark

(Riding the pain right through to your heart)

(You've got the love)  
(You've got the love)  
(You've got the love)

(For you to walk away)

(You got the love)  
(You got the love)  
(You got the love)

(You got the love)  
(You got the love)  
(You got the love)

(Yeah Yeah Yeah Yeah Yeah)

(And that's what it takes for the devil to say)  
(I never want to sit in your heart again baby)  
(Walk to the lord and never want this day)  
(Shake it long and hard girl baby)
