Sucker For Love

Erasure

I'm a sucker for love All that's artificial Sometimes below The belt I hit you

For without love Hell freezes over And wherever you go searching Know I'll want some

Give me back my calling cards and vices My dignity and romance novels too

The love we have
Is for the better now
The love we have
Is for the better now
The love we have
Is for the better now
The love we have
Is for the better now

If you wanna know the truth
I'm feeling open ended
For without love
I'm not tremendous

The world we share
It's not pretending
And whenever you go AWOL
Know I'll be there

Give me back the photographs I sent you $\ensuremath{\mathrm{My}}$ residence and cool emotion too

The love we have
Is for the better now
The love we have
Is for the better now
The love we have
Is for the better now
The love we have
Is for the better now

You gotta ride Ride, ride, ride

The love we have
Is for the better now
The love we have
Is for the better now
The love we have
Is for the better now
The love we have
Is for the better now

The love we have

Is for the better now
The love we have
Is for the better now
The love we have
Is for the better now
The love we have
Is for the better now
