

Supernature

Erasure

Once upon a time
Science opened up the door
We would feed the hungry fields
Till they couldn't eat no more
But the potions that we made
Touched the creatures down below
And they grew up in a way
That we'd never seen before

Supernature, supernature
Supernature, supernature

They were angry with the man
Who couldn't change their way of life
And they take that sweet revenge
As they trampled through the night
For hundred miles or more
You could hear the people cry
But there's nothing you can do
Even God is on their side (God is on their, God is on their, God is on their
side)

Supernature, supernature
Supernature, supernature

The gods will break the ice
And throw it in the air
The creatures will decide
Who goes where

How can I explain
Things are different today
Darkness all around
No one makes a sound
Such a sad affair
No one seems to care

Supernature, supernature
Supernature, supernature

Better watch out
There's no way to stop it now
You can't escape
It's too late
Look what you've done
There's no place that you can run
The monsters made
We must pay

Maybe nature has a plan
To control the ways of man
He must start from scratch again
Many battles must he win
Till he earns his place on earth
Like the other creatures do
Will there be a happy end
Now that all depends on you

Supernature, supernature
Supernature, supernature
Supernature, supernature
Supernature, supernature
Supernature, supernature
Supernature, Supernature
Supernature, Supernature
Supernature, Supernature
