

# Tenderest Moments

Erasure

1. We go down  
To a foriegn land  
Dive through the clouds  
You hold the guiding light in your hands

This must be all that there is  
Times don't come much more beautiful

You can show me places  
That my eyes have never seen  
I'm followin' you  
Where are you taking me to?

R: You could be my angel  
Who just walks out of a dream  
I'm followin' you  
Where are you taking me to?  
I have all faith in you  
And these tenderest moments (these tenderest moments)

2. We circle low  
Embrace the night as she draws us in  
A holy shroud  
A veil to hide our tenderest moments

This must be all...

You can show me places...

R: You could be my angel...
