

# I Can Tell

Eric Bellinger

Girl I can tell  
YFS

How 'bout tonight I show you something different  
(You something different, show you something different)  
I'mma do more than just give you the business  
(Give you the business, give you the business)  
Them bitches they all in your business  
(All in your business, they all in your business)  
They can see that I give you that feelin'

And them bitches ain't wrong though  
I'mma tell you exactly how it's gon' go  
Heard you gotta man? Not for long though  
Cause you done found a nigga with some long dough  
And I wanna be your real friend  
Up all night conversations  
Wake up ain't no telling where the day went  
That's just some things that I can tell

Said you ain't made love in a minute I can tell  
I can tell, I can tell  
Baby I can see that you need that  
Said you ain't felt love in a minute I can tell  
Baby I can tell, I can tell  
Baby I can tell, I can tell  
I can tell you want that  
I know you need that tonight

I'm focused on you girl I made my decision  
(Made my decision)  
So tonight we'll be switching positions  
(Switching positions)  
If you don't know what's going by now girl you finna found  
They say I put it down

And them bitches ain't wrong though  
I'mma tell you exactly how it's gon' go  
Heard you gotta man? Not for long though  
Cause you done found a nigga with some long dough  
And I wanna be your real friend  
Up all night conversations  
Wake up ain't no telling where the day went  
That's just some things that I can tell

Said you ain't made love in a minute I can tell  
I can tell, I can tell  
Baby I can see that you need that  
Said you ain't made love in a minute I can tell  
Baby I can tell, I can tell  
Baby I can tell, I can tell  
I can tell you want that  
Girl you need that tonight

Why you tryna hide, girl you know I can tell  
You ain't gotta fight no more I can tell  
You know that I can tell

You know that I can tell  
Girl I know you all too well  
You know I can tell  
You know I can tell  
This gon' be your favorite song
