

Mean What You Say

Eric Bellinger

So you mean like..
You mean like forreal forreal or you just like..
I'm just saying cause you know I
I'm ready, I'm with it, you feel me
And I mean it

When you say you understand
You with the plan
You done with him
You trust again
You in love again
You better mean it
When you say lets make it work
You'll put me first
You know what I'm worth
Fuck what you heard
Give me your word
You better mean it

Cause you ain't got no reason to lie
If you ain't gon' ride you could go right now
Go right now
You could go right now
Go 'head leave
Might as well head out
Cause I ain't got no time for the games
If you gon' play I'mma call timeout
Call timeout
I'mma call timeout

So keep it one thousand when you say what you mean
And just mean what you say
Girl just say what you mean
Just mean what you say
If you say that you love a nigga
If you say that you wanna spend all my time
If you say that you want a nigga
It's a whole lot of women waiting in line
I'm just saying that you better mean it
Fuck around and say your name in one of my songs
We could have the whole world singing
First I gotta know that you gon' say what you mean

When I say
When it come to me you enough for me
You the one for me
Tryna trust again it's kinda tough for me
Just know I mean it
When I say
I'm done with her
I was made for you
I'm in love with you
I want a son from you or another you
Just know I mean it

Cause I ain't got no time for the lies
Use to run plays, couple bands on the side

But baby you if mine then I'm cutting all ties
To keep it one thousand
You could trust me every time
Cause I ain't got no time for the games
If you gon' play I'mma call timeout
See what I'm about
You know I'mma find out

So keep it one thousand when you say what you mean
And just mean what you say
Girl just say what you mean
Just mean what you say
If you say that you love a nigga
If you say that you wanna spend all my time
If you say that you want a nigga
It's a whole lot of women waiting in line
I'm just saying that you better mean it
Fuck around and say your name in one of my songs
We could have the whole world singing
First I gotta know that you gon' say what you mean
