[Intro:]

Look at yo girl over there in the club with them binoculars on my nigga

She wanna be over here

She wanna be over here here here

Better get yo wife

She been tryna sneak away all night

And she just my type

So you better not let er out of your sight

She been lookin for a real nigga her whole life

Yea

[Pre-Chorus:]

Got my feet on the couch

And the DJ's yelling my name so loud

While you walkin around

She's headin over to me right now

Yea

[Chorus:]

She wanna be over here here here

She wanna be over here here here

She wanna be over here here here

(With me and my niggas only, me and my niggas only)

She wanna be over here here here

(With me and my niggas only, me and my niggas only)

She wanna be over here

[Verse 2:]

Better get yo girl (you better get)

For she be over here rockin my world

Better get yo lady

'Cause she gon end up naked

Doing all the things you love to me

[Pre-Chorus:]

Got my feet on the couch

And the DJ's yelling my name so loud

While you walkin around

She's headin over to me right now

Yea

[Chorus:]

She wanna be over here here here

She wanna be over here here here

She wanna be over here here here

(With me and my niggas only, me and my niggas only)

She wanna be over here here here

(With me and my niggas only, me and my niggas only)

She wanna be over here

[Verse 3:]

Lord yea no makeup

She goin through a breakup

Tired of that clown

Bout to let her head down
Fuck you, pay her
All the ugly bitches hate her
Bad than a motherfucker
Make a nigga never wanna use a rubber
Hot girl, like to drink then come here
Just like that I appear, rub my hands on that hands
On them cookies at the double tree hotel
Pullin on a remi with pony tail
Big ass butt, big ass boobs
Everything big like Texas
Hermes bag, Tyler Bainley shoes
Pussy smell so fresh

[Chorus:]

She wanna be over here here here
She wanna be over here here here
She wanna be over here here here
(With me and my niggas only, me and my niggas only)
She wanna be over here here here
(With me and my niggas only, me and my niggas only)
She wanna be over here
