

Remind Her

Eric Bellinger

I know you been working hard
You been working hard
You know I been on my job
I been killin' them all
Take up so much of my time plus you be on your grind
But I finished early tonight so

I'ma come through with that reminder
I got it if you need it a reminder
I'ma remind you about that swang
I'ma remind about my stroke
I'ma remind about you that your body never felt this way before
I'ma remind about that shit that I be doing with tongue
I'ma remind you I'm that nigga
I'ma remind you I'm the one
Incase you needed that
Incase you needed that
I know you needed that

Remind you how foolish
I want you to be more a fool for me when I pull up in
Slide in your units
Give you all of me til' you fall asleep
Have you calling me
I might not always I.M.Y. you with the body faces
But tonight I'ma wine and dine you with the finest aces
I get the kissing all up on your spot
Firmly gripping the back of your thighs
Had to remind you how you fell deep for me
Ain't fit no category

I'ma come through with that reminder
I got it if you need it a reminder
I'ma remind you about that swang
I'ma remind about my stroke
I'ma remind about you that your body never felt this way before
I'ma remind about that shit that I be doing with tongue
I'ma remind you I'm that nigga
I'ma remind you I'm the one
Incase you needed that
Incase you needed that
I know you needed that
