

Valet

Eric Bellinger

I'm trying to talk to you
But the music too loud
Girl I know a quiet please
Where we can buy it all
I ain't like your ex
You can let your guard down
Cause you are with a real one
So they can come down

Oh, yeah, they can come down
They're sayin' I'm the n***a
That's the word around town
Yeah, that's the word around town
If you didn't know before
I bet you know now

Baby you got everything that a n***a wants
I just want to put you on
I just wanna see you with them lickies on
Wear them off

Let's ride out
Let's ride out
I got the car outside if you're ready
Only if you ready
Tell them valet niggaz go and get it
Only if you're ready

I'm not driving like a freak
I introduce you to my bag of tea
Pour my drink
Roll some weed
If you really fuckin' with me

S** so good
F**k it, we do 69
Baby you got everything that a n***a wants
I just want to put you on
I just wanna see you with them lickies on
Wear them off

Let's ride out
Let's ride out
I got the car outside if you're ready
Only if you ready
Tell them valet niggaz go and get it
Only if you're ready

They say time is money
And I ain't spending mine
Oh the girl gonna drink my s**t
And go home with another n***a
Got me fucked up
So don't even try
You're coming and you're coming
I don't need a line
I want to eat them right now

Pull them to the side
But that's if you only get in my ride

I know you're a freak
Let's put on the show
For the walls in my bedroom
Cause we got to go
That's so bad I want you

Let's ride out
Let's ride out
I got the car outside if you're ready
Only if you ready
Tell them valet niggaz go and get it
Only if you're ready

You got everything that a n***a wants
