

# Warning

Eric Bellinger

[Verse 1:]

You got on my nerves  
A lot of lies  
Now you said a few things that you didn't deserve  
But girl you know we've been through worse  
Yea

Oh, but you got that mouth  
You switchin words  
Now you wanna act like you the only one hurt  
I thought I told you I was sorry yea

[Pre-Chorus:]

Oh oh oh where you going?  
You've had your best  
You sure got the shit together fast  
Didn't have to get yo boy back like that  
No, no

[Chorus:]

Oh, instead of just running away oh oh oh  
You could've warned me  
You could've warned me yea  
Oh! But you took my loving away oh oh oh  
Without a warning  
You should've warned me  
Yea

[Bridge:]

Left without a warning (you could've warned me)  
Left without a warning (should've warned me)  
Just a warning (could've warned me)  
Could've warned me, should've warned me

[Verse 2:]

I give you props, it took a lot of heart  
You're drama free but that's a definite curse  
I bet you you'll be calling me first

[Pre-Chorus:]

Oh oh oh where you going?  
You've had your best  
You sure got the shit together fast  
Didn't have to get yo boy back like that  
No, no

[Chorus:]

Oh, instead of just running away oh oh oh  
You could've warned me  
You could've warned me yea  
Oh! But you took my loving away oh oh oh  
Without a warning  
You should've warned me  
Yea

[Verse 3:]

Girl I wasn't serious

When I told your ass to go  
But you take everything so personal  
You ran right out the door  
Without a warning

You could've told me  
You weren't happy  
Meeting another would've been better  
Girl, why oh why  
Why'd it had to end this way?

[Chorus: x2]

Oh, instead of just running away oh oh oh  
You could've warned me  
You could've warned me yea  
Oh! But you took my loving away oh oh oh  
Without a warning  
You should've warned me
