I'll Be There

Eric Benét

When I'm far away Could I ever be untrue? Naw baby

Could I fade away Find somebody new? Naw baby

Though this road gets long and weary I'm always coming home to you

I'll be there for you
Oh baby I'll be waiting around for you
I'll be there for you oh baby I
I'll be there for you

Could a summer breeze Compare when you're in view? Naw baby

Could anything or anybody Thrill me like you do Naw baby

So you'll never have to wonder I commit my love to you

I'll be there for you
Oh baby I'll be waiting around for you
I'll be there for you oh baby I
I'll be there for you

Listen to me, though this road gets long and weary Girl it always leads to you

I'll be there for you
Oh baby I'll be waiting around for you
I'll be there for you oh baby I
I'll be there for you
