

Love Don't Love Me

Eric Benét

Time

I still don't know the reason that for all this time
I'm all alone but see it comes as no surprise
it seems like I go left each time that love goes right
every time

By chance, something happens every time I get a chance
I feel the rhythm but I just don't know the dance
I want to move with you but something holds me back
I'm holding back, yeah

All I ever needed I could never find
all I ever wanted was to get it right
Somebody tell me what is wrong with me
I wasn't sure but I know now I believe
That it must be, love don't love me, love don't love me

Oh why,
I know exactly what is missing in my life,
Something for sure and something pure maybe a wife
but then I'm out the door before the morning light
Every night

So I pray
I'm so afraid I'm always gonna be this way
Relationships only to pass the time away
Fear of commitment is a habit hard to break
I must say, yeah

All I ever needed I could never find
all I ever wanted was to get it right
Somebody tell me what is wrong with me
I wasn't sure but I know now I believe
That it must be, love don't love me, love don't love me

All I ever wanted was some happiness,
take it to a level that's above the rest
I wanna know how it's supposed to be
I wanna feel something real but
I believe that it must be love don't love me, love don't love me

Someone teach my heart to fall in love again
That all I have to fear is fear itself
I know that I was born to love one woman
but why must I keep running through the rest? Oh---- Yeah

All I ever needed I could never find
all I ever wanted was to get it right
Somebody tell me what is wrong with me
I wasn't sure but I know now I believe
That it must be, love don't love me, love don't love me
no it don't love me

All I ever wanted was some happiness,
take it to a level that's above the rest
I wanna know how it's supposed to be
I wanna feel something real but

I believe that it must be love don't love me, love don't love me Oh-oh
