

# Great Expectations

Eric Carmen

Seems everyday  
I'm gettin' harder pressed  
To find a reason to shave  
Watchin' the hours  
Just slippin' away  
No motivation to get out of bed  
And carry on the charade  
Caught in a dream that's goin' astray

Oh, all those great expectations  
Seems they never work out, never work out  
The way that I plan  
All those great expectations  
Why they never work out, never work out  
I can't understand

And just when I think  
That things are goin' right  
I get a call from L.A.  
Sorry to say "we're changin' your song"  
I try to reason  
But I can't get through  
They're gonna do it their way  
What can I say  
They've never been wrong

Oh, all those great expectations  
Seems they never work out, never work out  
The way that I plan  
All those great expectations  
Why they never work out, never work out  
I can't understand

Life is just a game of chance  
I think somebody said so  
Sometimes you get a hula hoop  
Sometimes you get an Edsel

Oh, all those great expectations  
Seems they never work out, never work out  
The way that I plan  
All those great expectations  
Why they never work out, never work out  
I can't understand
