

# Ain't Killed Me Yet

Eric Church

Workin' all this overtime  
Is good at keepin' me occupied  
Hell with the stress  
It ain't killed me yet

Doctor says I gotta quit  
Get on the wagon and off of them damn cigarettes  
But they ain't killed me yet

Doc you probably wonder why I don't care  
Why I don't change, why I ain't scared

'Cause I thought her leavin' would stop my heart from beatin'  
And gettin' over her would be my death  
It hurts every night  
When she dances through my mind  
I still feel the sting of the loneliness  
But it ain't killed me yet

She turned this house into a tomb  
Ghosts rattle in every room  
They're doin' their best  
But they ain't killed me yet

So I lean on the bottle more every night  
I'm probably past the point where I should give it a rest  
But it ain't killed me yet

No I ain't sayin' I'll never die  
but 'til I do I'm on borrowed time

'Cause I thought her leavin' would stop my heart from beatin'  
And gettin' over her would be my death  
It hurts every night  
When she dances through my mind  
I still feel the sting of the loneliness  
But it ain't killed me yet  
It ain't killed me yet

It hurts every night  
When she dances through my mind  
I still feel the sting of loneliness  
But it ain't killed me yet
