

# Like a Wrecking Ball

Eric Church

I've, I've been gone, I've been gone too long  
Singin' my songs on the road, another town  
One more show then I'm coming home  
Don't give a damn what these keys are for  
I'm gonna knock down that front door and

I'm gonna find out what that house is made of  
Been too many nights since it's felt us make love  
I wanna rock some sheet rock  
Knock some pictures off the wall  
Love you baby like a wrecking ball

You, look at you, send me one more shot  
Sittin' on a bathroom sink  
Damn, you really turn me on  
Painting your toenails pink  
Easy baby for you to say  
But if I can make it just one more day

That whole house is gonna be shakin'  
I hope those bricks and boards can take it  
But I won't be surprised  
If the whole damn place just falls  
Wanna rock you baby like a wrecking ball

And that old house is gonna be shakin'  
Rafter rockin', foundation quakin'  
Crash right through the front door  
Back you up against the wall  
Love you baby  
Take it right there baby  
Rock you baby like a wrecking ball
