

# Smoke a Little Smoke

Eric Church

Turn the quiet up, turn the noise down  
Let this ol' world just spin around  
I wanna feel it swing, wanna feel it sway  
And put some feel good in my soul

Drink a little drink, smoke a little smoke

Want a little more right and a little less left  
Little more right now, a little less what's next  
Act like tomorrow's ten years away  
And just kick back and let the feelin' flow

Drink a little drink, smoke a little smoke

I set my sails for a new direction  
But the wind got in my way  
I changed my course but my definition of change  
Just ain't the same

I'm gonna sit around here, stay away from there  
I'm gonna make pretend I just don't care  
I could get up, go get her back  
Or maybe I'll just let her go

Drink a little drink, smoke a little smoke, yeah

Yeah, go get her back  
Drink a little drink, smoke a little smoke  
Drink a little drink, smoke a little smoke

Kick back, give the blues spin  
Break out the wine, forget again  
Dig down deep, find my stash  
Light it up, take me back

Kick back, give the blues spin  
Break out the wine, just forget again  
Dig down deep, find my stash  
Light it up, memory crash

Oh no, I don't know, baby, might take all night  
Better maybe break out that old rock and roll  
Drink a little drink, smoke a little smoke  
Gonna drink a little drink, smoke a little smoke
