

# Best Days

Eric Hutchinson

I give myself up every day  
To fight this woe is me demeanor  
If things had gone another way  
Now would my grass be any greener?  
And as I'm struggling on my own  
I have to think I'm not alone

Give and take, we catch our breaks  
We all learn to survive  
Oh, but don't look now  
I said don't look now  
Cause here we are,  
Living the best days of our lives  
These are the best days of our lives

I fly around the world to spend  
My nights with strangers and their lovers  
I notice happiness depends  
On if we share it with each other  
So when this craziness is through  
I'll spend my happiness with you

Give and take, we catch our breaks  
We all learn to survive  
Oh, but don't look now  
I said don't look now  
Cause here we are,  
Living the best days of our lives  
These are the best days of our lives

As we're walking through the fire  
Isn't it great to be alive?

Give and take, we catch our breaks  
We all learn to survive  
Oh, but don't look now  
I said don't look now  
Cause here we are,  
Living the best days of our lives  
These are the best days of our lives

Everybody, let me hear you sing  
It goes..  
Give and take, we catch our breaks  
We all learn to survive  
Oh, but don't look now  
I said don't look now  
Cause here we are,  
Living the best days of our lives  
These are the best days of our lives
