

# I Got The Feelin' Now

Eric Hutchinson

Christ the building its so bright outside my window  
Reach out touch it from my place  
Whisper secrets to the city lights around me  
Boom I'm banging out of space

And I could really float away  
And I could really float away  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling  
I don't want to stop and I can finally learn to live this way  
I got the feeling

Empire state it always changes colors lately  
Back and forth it colored line  
Flip the switch and watch the city go for hours  
Turn the lights off in my mind

And I could really float away  
And I could really float away  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling now  
Oooh wooh I got the feeling  
I don't want to stop and I can finally learn to live this way  
I got the feeling  
I got the feeling

I got the feeling now  
I got the feeling now  
I got the feeling now  
I got the feeling now  
I got the feeling now  
I got the feeling  
I got the feeling now no no no no no

Going to make it to the top  
Going to reach for the lights  
Right thing to say  
Nothing evers going change  
When your feeling all alone  
When your feeling all the lights  
I don't want to stop  
and I can finally learn to live this way  
I got the feeling  
I got the feeling
