

# In The First Place

Eric Hutchinson

If you had any idea what it was gonna take  
Would you have gotten started in the first place  
All these commitments you've made  
They keep on adding up  
Because you got addicted from the first taste

Ooooh, nobody wonders  
Nobody really cares  
Ooooh, about your intentions  
Until you gotten there

Oooo, when you started out, you were just a blank space  
You started out, you were just an ordinary face  
You started out, now you've got to finish what you've done  
Isn't that why you started in the first place  
Started in the first place

If you had ever believed  
That you were gonna break  
Would you have gotten going in the first place  
All these decisions it takes  
To get you through the day  
With no one even noticing your heart break

Ooooh, are you alone yes  
Are you in trouble no  
Ooooh, people's opinions  
They tend to come and go

Oooo, when you started out, you were just a blank space  
You started out, you were just an ordinary face  
You started out, now you've got to finish what you've done  
Isn't that why you started in the first place  
Started in the first place

How do you know  
When you're finally done  
If you've got nothing to show  
How do you know  
When all the people you might trust  
All forget to let you know

Ooooh

Oooo, when you started out, you were just a blank space  
You started out, you were just an ordinary face  
You started out, now you've got to finish what you've done  
Isn't the why you started in the first place  
Started in the first place

Can you remember at the start  
Can you remember trying your first shot  
Can you remember wanting to be there  
Can you remember wanting to be there  
Do you know why you started in the first place  
Do you know why you started in the first place  
In the first place

Started in the first place

Started in the first place
