

Friends

Eric Johnson

Night, darkness of night
I've got a friend I'm turning to
Stay beside me now
Though night and day might slip away

Always with you, there I will be
Where you might go, I'll be there too
I have in you such a good friend
I have in you such a good friend

Days, numbers of days
Giving us now, love in this day
Life, all of my life
I've got a friend I'm turning to

Always with you, there I will be
Where you might go, I'll be there, too
I have in you such a good friend
Friend like as you, there is no end
