

# If You Believe Me

Eric Martin

Standing here your arms open wide  
Asking me if our love is dying  
Now you show me, a different side  
All you gotta do is show it

Baby don't you know we  
That you're lost if you hide  
What you feel inside  
If you believe me

Every word I say  
If a picture told a thousand words  
Would you still walk away  
If you believe me

Every word I say  
If a picture told a thousand words  
Here I am again by your side  
I wish we could laugh

But we always cry  
Don't say goodbye  
Baby give it one more try  
If you believe me

Every word I say  
If a picture told a thousand words  
Would you still walk away  
If you believe me

Every word I say  
If a picture told a thousand words  
Stay baby  
Listen baby listen to all you've been saying

Don't you see it's just a trick that your mind had been  
Playing  
Listen to your heart  
Listen to my heart

It's your heart and mine  
We're two of a kind  
One heart is so hard alone  
If you believe me

Every word I say  
If a picture told a thousand words  
Would you still walk away  
If you believe me

Every word I say  
If a picture told a thousand words  
Would you still walk away
